

## **Building Control Charges**

Building (Local Authority Charges) Regulations 2010 – With effect from 3<sup>rd</sup> April 2023

The charge for Building Regulation work is intended to cover the cost of the service. The two methods that the authority uses to establish the charge for building work are on individually determined charge or the establishment of a standard charge. The Building Regulation charge for most extensions and alterations are standard charges.

Charges are not payable for certain aspects of work carried out solely for the benefit of a disabled person.

### **Standard Charges**

These charges have been set by the authority on the basis that the building work does not consist of, or include, innovative or high-risk construction and/or the duration of the building work from commencement to completion does not exceed 12 months.

The charges have also been set on the basis that the design and building work is undertaken by a person or company that is competent to carry out the relevant design and building work referred to in the standard charges table. If they are not, supplementary charges may be incurred.

Please note there is an administrative fee (minimum of £100) charged for applications that do not proceed for any reason. The actual amount charged will be dependent on the amount of time spent on the application

### **Individually Determined Charges**

This method of determining the charge mainly relates to larger schemes and includes the following building work:

- Applications subject to a reversion charge (work reverting from an approved inspector to the local authority)
- Building work that is in relation to more than one building
- Building work consisting of an extension where the floor area exceeds 100m<sup>2</sup>
- Building work consisting of alterations to a domestic property (other than extensions) where the estimated cost exceeds £100,000
- New dwellings where the floor area for a dwelling exceeds 300m<sup>2</sup> and/or the scheme involves more than five new dwellings

\*If your building work is defined as requiring an individual assessment of a charge you should e-mail: [buildingcontrol@redbridge.gov.uk](mailto:buildingcontrol@redbridge.gov.uk) preferably with 'request for building regulation charge' in the title of the e-mail and provide a description of the intended work. We will contact you within 48 hours. Alternatively, telephone 020 8708 2529 for details.

## Schedule 1 New Dwellings

Figures include VAT at 20% (<sup>1</sup>VAT is not payable on a Regularisation charge)

Category	Description	Full Plans / Building Notice Charge	<sup>1</sup> Regularisation Charge

# Building Control Charges

## Guidance Notes

**The Building (Local Authority Charges) Regulations 2010 are divided into Plan and Inspection Charges, Building Notice Charges and Regularisation Charges. They are different for each type of work.**

**The following notes are for guidance only and are not a substitute for the Statutory Instrument 2010 No. 404 which contains a full statement of the law.**

**All charges are subject to VAT at the appropriate rate except the Demolition and Regularisation Charge.**

1. **Charges** – These are valid from 3<sup>rd</sup> April 2023.
2. **Full Plans** – The Charge must be paid on the deposit of the plans with the Council.
3. **Building Notices** – The Charge must be paid when the Notice is submitted to the Council.
4. **Regularisation Charges** – The Charge must be paid when the Notice is submitted to the Council (VAT exempt) and relates to the regularisation of unauthorised building work commenced on or after 11<sup>th</sup> November 1985.
5. **Demolition Notices** – The Charge must be paid when the Notice is submitted to the Council.
6. **Search Enquiries** – The Charge must be paid before the Council responds to the enquiry.
7. **Exemptions** – Where work is to provide access and/or facilities for disabled people to existing dwellings and buildings to which the public have access, this may be exempt from charges.
8. **Payment** – Payment links will be emailed following application assessment.
